

Saber Power Services now offers Enterprise Asset Management software to our customers through a partnership formed with CalemEAM Inc. We proudly offer both the Community and Enterprise versions of the software:

Benefits of EAM/CMMS Software Include:

- Manage your asset's preventive maintenance more efficiently
- Extend the life of your equipment
- Keep your plant, equipment, and facilities available, reliable, and safe
- Cut your inventory levels, purchasing costs, and energy use
- Make better decisions faster
- Improve your staff's productivity
- Load & Access all past reports & data in one place
- Attach drawings and manuals to your assets
- Load assets, resources, due dates, and reminders
- Track your required parts inventories
- Automatic notifications can be sent via email, text, etc.

Contact Saber Power Services today to schedule a free company evaluation to determine which version of CalemEAM will be the best fit for your needs.
